Educating Music People Since 1977

15th Annual Hot 100 Unsigned Artists

Southern California has become the location of choice for many artists to come and get discovered. This is because Los Angeles is still the home of many top

entertainment reps from not only record labels, but film and tv production companies. For this reason, our alphabetical Hot 100 unsigned artists list is even more competitive with more artists to choose from. Each of the musical style descriptions were submitted by the band or artist. Those involved with determining the results of this year's poll included *Music Connection* staff members, journalists, club bookers, publicists and other industry pros.

Compiled by Bernard Baur, Michael Mollura and Zubi Olin
